

# MBK 250 EC

**SKU:** MBKEC00250M

In-line ventilation box. Built with a backward-bladed centrifugal fan mounted on an external rotor motor. The motors used in this series are brushless, high-efficiency EC motors. Suitable for control via a 0-10V input signal.

- Single ear reaction fan
- External rotor motor.
- Enclosure made of galvanised sheet steel.
- External rotor motor with IP44 protection, B class.
- Adjustable.
- Sandwich panel with 20mm thick thermo-acoustic insulation.
- High efficiency brushless EC motors. They can be controlled by a 0-10V signal.

## ESPECIFICACIONES TÉCNICAS

|                     |                      |
|---------------------|----------------------|
| <b>FAMILIA</b>      | MBK                  |
| <b>TIPOLOGIA</b>    | STANDARD APPLICATION |
| <b>Montaje</b>      | CIRCULAR DUCT        |
| <b>Diámetro</b>     | 250mm                |
| <b>Alimentación</b> | ~l/50-60Hz           |
| <b>Potencia</b>     | 170 W                |
