

## **MBK 400 EC**

SKU: MBKEC00400M

In-line ventilation box. Built with a backwardbladed centrifugal fan mounted on an external rotor motor. The motors used in this series are brushless, high-efficiency EC motors. Suitable for control via a 0-10V input signal.

Single ear reaction fan
External rotor motor.
Enclosure made of galvanised sheet steel.
External rotor motor with IP44 protection, B class.
Adjustable.
Sandwich panel with 20mm thick thermo-acoustic insulation.

• High efficiency brushless EC motors. They can be controlled by a 0-10V signal.
