

# MBK 400 EC

**SKU:** MBKEC00400M

In-line ventilation box. Built with a backward-bladed centrifugal fan mounted on an external rotor motor. The motors used in this series are brushless, high-efficiency EC motors. Suitable for control via a 0-10V input signal.

- 
- Single ear reaction fan
  - External rotor motor.
  - Enclosure made of galvanised sheet steel.
  - External rotor motor with IP44 protection, B class.
  - Adjustable.
  - Sandwich panel with 20mm thick thermo-acoustic insulation.
  - High efficiency brushless EC motors. They can be controlled by a 0-10V signal.
