

MBK 400 EC

SKU: MBKEC00400M

In-line ventilation box. Built with a backward-bladed centrifugal fan mounted on an external rotor motor. The motors used in this series are brushless, high-efficiency EC motors. Suitable for control via a 0-10V input signal.

-
- Single ear reaction fan
 - External rotor motor.
 - Enclosure made of galvanised sheet steel.
 - External rotor motor with IP44 protection, B class.
 - Adjustable.
 - Sandwich panel with 20mm thick thermo-acoustic insulation.
 - High efficiency brushless EC motors. They can be controlled by a 0-10V signal.
